Template 003

Code: CcStillPending
Event type: -
Recipient role: LICENSEE
Schedule: -
Status: Enabled
Description: Client Confirmation still pending after an attempt | Client Admins
Subject: Client Confirmation: Pending | ${clientName}

Email body

Client Confirmation still pending

Hello ${recipientName},

Client Confirmation for ${period} remains pending after the processing attempt on ${processedAt}.

Rows that failed: ${failedCount}

Please review the error file in Inebura and correct the permitted failed rows.

The next Month-End remains blocked until this Client Confirmation is executed.

Template 004

Code: CcExecutedWithErrors
Event type: -
Recipient role: LICENSEE
Schedule: -
Status: Enabled
Description: Client Confirmation completed with errors | Client Admins
Subject: Client Confirmation: Executed with Errors | ${clientName}

Email body

Client Confirmation executed with errors

Hello ${recipientName},

Client Confirmation for ${period} was processed on ${processedAt}. The cycle is treated as executed, with some rows requiring correction.

Rows processed successfully in this attempt | ${successCount}

Rows that failed in this attempt | ${failedCount}

Please review the error file in Inebura. You may correct originally failed invoices before the next Month-End executes.

These failed rows do not block the next Month-End.

Template 006

Code: CcHeldMonthEndFailed
Event type: -
Recipient role: LICENSEE
Schedule: -
Status: Enabled
Description: Client Confirmation held because Month-End failed | Client Admins and Supervisors
Subject: Client Confirmation pending: Month-End failed | ${clientName}

Email body

Client Confirmation held because Month-End failed

Hello ${recipientName},

Client Confirmation scheduled for ${ccRunAt} did not start because the preceding Month-End for ${period} was not completed successfully.

Client Confirmation remains pending and cannot run until its Month-End dependency succeeds.

Client Admins: please review the Month-End failure and coordinate recovery.

Supervisors: please follow up with a Client Admin.

Template 007

Code: CcPendingEscalation

Event type: -

Recipient role: LICENSEE

Schedule: -

Status: Enabled

Description: Escalation: Client Confirmation remains pending | Client Admins and Supervisors

Subject: Escalation: Client Confirmation pending | ${clientName}

Email body

Escalation: Client Confirmation remains pending

Hello ${recipientName},

Client Confirmation for ${period} is still pending, and the reminder target of ${ccTargetDate} is approaching.

Client Admins: please complete Client Confirmation through the applicable upload or No Impacted Invoices action in Inebura.

Supervisors: please coordinate any collection clarifications with your Agents and follow up with a Client Admin. Only a Client Admin can execute Manual Client Confirmation.

The next Month-End remains blocked until this Client Confirmation is executed.

Template 008

Code: CcPendingReminder

Event type: -

Recipient role: LICENSEE

Schedule: -

Status: Enabled

Description: Reminder to complete Client Confirmation | Client Admins

Subject: Action required: Client Confirmation | ${clientName}

Email body

Reminder to complete Client Confirmation

Hello ${recipientName},

Client Confirmation for ${period} is pending. The reminder target is ${ccTargetDate}.

Please upload the impacted-invoice file. If there are no impacted invoices and no primary file has been uploaded, select “Close Client Confirmation - No Impacted Invoices”. If a file has already failed, correct and resubmit the permitted failed rows.

This target is a planning reminder, not a hard deadline. However, the next Month-End cannot run while this Client Confirmation remains pending.

Template 009

Code: MonthEndAgentCollectionReminder

Event type: -

Recipient role: LICENSEE

Schedule: -

Status: Enabled

Description: Report collections before Month-End | Assigned Agents

Subject: Please update collections before Month-End | ${clientName}

Email body

Please update collections before Month-End

Hello ${recipientName},

Month-End for ${period} is scheduled for ${meRunAt}.

Please report and verify collections for your assigned invoices before the run, using the correct Transfer/Collection Date.

If you need help resolving a collection discrepancy, contact your Supervisor or Client Admin. You do not need to trigger Month-End yourself.

Template 012

Code: MonthEndCycleFailure
Event type: -
Recipient role: LICENSEE
Schedule: -
Status: Enabled
Description: Month-End execution failed | Client Admins and Supervisors
Subject: Month-End could not be completed | ${clientName}

Email body

Month-End execution failed

Hello ${recipientName},

Month-End for ${period}, scheduled for ${meRunAt}, could not be completed.

Reason: ${safeFailureReason}

Reference: ${runReference}

Client Admins: please review the failure in Inebura and coordinate the next action with your support team.

Supervisors: please follow up with a Client Admin.

A Client Admin can re-run this Month-End from the Month-End panel; it closes a fresh window up to the day it is triggered. This reminder is sent every morning at 9:00 AM until that happens.
